⏱️ **15–25 min**

to make one Reel once you learn the system

💵 **$1–$10**

est. per 1,000 views from US/UK viewers

🎯 **30 days**

step-by-step plan to build your page

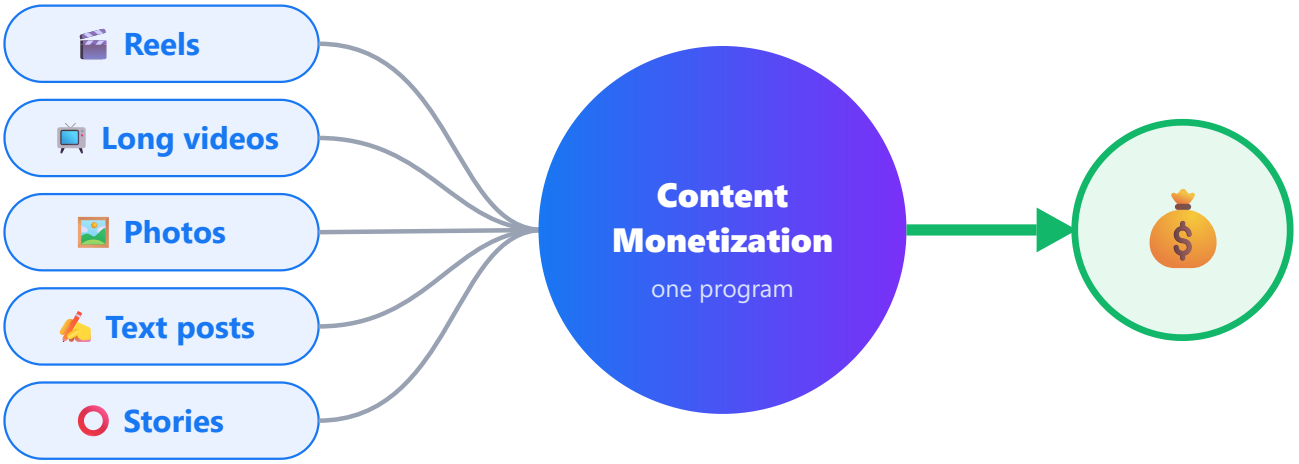

⚠️ **Honest note:** Nobody can promise money or viral views. This guide shows the real rules and the safest, fastest path. Facebook changes its rules often, so always check your own dashboard.

CHAPTER

# How Facebook Pays Creators in 2026

01

Facebook now has **one program** called **Content Monetization**. One approval lets you earn from all your posts.

## ~$3 billion

Facebook paid creators nearly this much in 2025, its highest ever.

## 60%

of that money went to **Reels**. So Reels are your main tool.

### What changed?

The old programs (In-Stream Ads, Ads on Reels and the Performance Bonus) are now merged into this one program. Creator Studio is gone. Everything is in your **Professional Dashboard**.

### How to join (it's invite-only)

1. Open the Facebook app and go to your **Professional Dashboard**.
2. Tap **Monetization**, then **Content Monetization**.
3. Fill in the **"express interest"** form.
4. Keep posting original content. Facebook sends invites from time to time.

❌ **MYTH**

"You need 5,000 followers and 60,000 watch minutes."

*These were rules of the old In-Stream Ads program.*

✅ **TRUTH**

There is **no public follower number**. Facebook invites pages with original content, good watch time and a clean record.

## 📊 The 3 numbers that decide your income

### Qualified Views

Views that can earn money.

### Earnings Rate

Money earned per 1,000 qualified views. This is your real "RPM".

### Non-Qualified Views

Facebook tells you why some views did not earn. Read it weekly and fix it.

## 🚀 Shortcut: Creator Fast Track

Already have followers on Instagram, YouTube or TikTok? You can skip the waiting line.

| Followers on another app | Guaranteed pay | Extra benefits |
|---|---|---|
| 100,000+ | **$1,000 / month** for 3 months | Instant Content Monetization access + more reach on Reels |
| 1,000,000+ | **$3,000 / month** for 3 months | |

💡 **Smart idea:** Grow your faceless page on YouTube Shorts or Instagram Reels too. When it crosses 100K, apply for Creator Fast Track.

## 🟢 Keep your page healthy

Open **Professional Dashboard** → **Monetization** → **Monetization Status** every week.

### 🟢 Green

All good. Keep going.

### 🟠 Orange

Earnings are limited. Fix the issue shown.

### 🔴 Red

Earnings paused. Fix it before posting more of the same type.

YOUR PLAN

# Your 30-Day Action Plan

Follow this week by week. The goal: a page good enough to get invited.

### 📐 Days 1–4: Set up

- Make a Facebook **Page** in ONE niche.
- Write the name and bio in English.
- Study 10 big US pages in your niche.
- Write 30 video topics.

### 🎬 Days 5–14: Start posting

- Make 5 Reels in one sitting.
- Post 1–2 Reels every day.
- Add 1 photo or text post daily.
- Reply to every comment within 1 hour.

### 📈 Days 15–21: Learn and apply

- Check which Reels people watched longest.
- Make more of your top 3 styles.
- Fill the Content Monetization interest form.
- Fix anything that is not green.

### 🚀 Days 22–30: Scale up

- Post 2 Reels a day.
- Add one 3–5 minute video each week.
- Post Stories every day.
- Plan next month's 60 topics.

### ✅ Chapter 1 checklist

- [ ] I made a Facebook Page (not just a profile) in one niche.
- [ ] I found the Content Monetization interest form in my dashboard.
- [ ] I know my 3 numbers: Qualified Views, Earnings Rate, Non-Qualified Views.
- [ ] My Monetization Status is all green.

CHAPTER

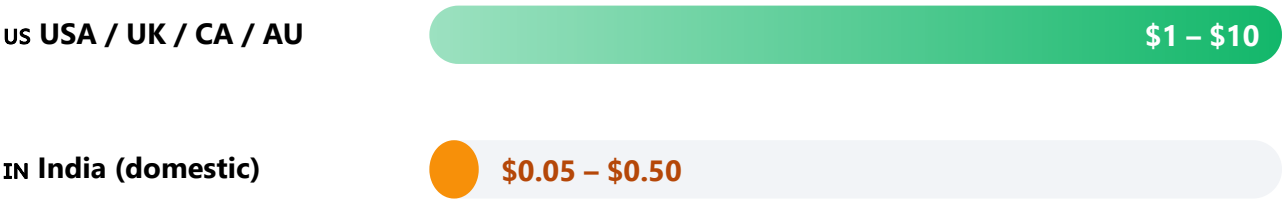

# Pick a Niche That Pays More

02

The biggest money secret: **who** watches matters more than **how many** watch.

## 💵 Why US viewers pay much more

Facebook pays you from ad money. Advertisers pay much more to show ads to people in the USA, UK, Canada and Australia. So the same views can earn **20 to 50 times more**.

Estimated earnings per 1,000 qualified views. Based on creator reports, not official Meta numbers.

## 🏆 Top 10 niches for faceless pages

| Niche | Est. per 1,000 views (US) | Best format |
|---|---|---|
| 💰 Personal finance & investing | **$4 – $12** | 60–90s Reels, chart posts |
| 🤖 AI & tech tools | **$3 – $10** | Screen-record Reels, 3–5 min demos |
| 📈 Business success stories | **$3 – $9** | 2–4 min story videos |
| 🏰 Luxury homes & architecture | **$3 – $8** | 30–45s Reels, photo posts |
| 🧬 Health science facts | **$2 – $8** | 60s explainer Reels |
| 🏛️ History & mysteries | **$2 – $7** | 3–8 min story videos |
| 🧘 Stoicism & self-improvement | **$2 – $6** | Quote Reels, quote photos |
| 🚀 Space & science | **$2 – $6** | 60s Reels with NASA images |
| 🦁 Wildlife & nature facts | **$1.5 – $5** | 30–60s Reels |
| 🏠 Home, DIY & cleaning hacks | **$1.5 – $5** | 30s step-by-step Reels |

**Rule:** One niche per page. Mixed topics confuse Facebook and your audience.

REACH THE USA FROM INDIA

# 4 Safe Ways to Get US Viewers

You live in India, but your viewers can be in America. Here's how.

## 1️⃣ Post on US time

| US time (Eastern) | India time (Mar–Nov) | India time (Nov–Mar) | Why |
|---|---|---|---|
| 🌞 7–9 AM | 4:30–6:30 PM | 5:30–7:30 PM | Morning phone check |
| 🍔 12–1 PM | 9:30–10:30 PM | 10:30–11:30 PM | Lunch break scroll |
| 🌙 7–10 PM | 4:30–7:30 AM | 5:30–8:30 AM | Evening relax time |

👉 Don't wake up at 5 AM. Use the **scheduler** in Meta Business Suite.

### 2️⃣ Write like an American

Use US spelling (color, not colour), dollars ($), miles, °F and US examples. Keep captions, on-screen text and voice in English.

### 3️⃣ Pick US topics

Open **Google Trends**, set it to **United States**. A video on US home prices brings US viewers. A video on Indian mutual funds brings Indian viewers.

### 4️⃣ Get US followers first

Facebook first shows your post to your followers and similar people. If your early followers are American, every new post leans American.

### 🚫 Don't use a VPN

Fake locations can trigger security checks and don't change who watches.

## 📍 Weekly audience check

1. Go to **Professional Dashboard → Insights → Audience → Top countries**.
2. Target: **60%+** viewers from US, UK, Canada and Australia by Day 30.
3. If India is above 40%, check your last 10 posts: topic, examples and posting time.

CHAPTER

# The Faceless AI Video Machine

03

Make one 45–60 second Reel in **15–25 minutes**. Make 5 at once and it gets close to 10 minutes each.

**1. Script** **2. AI Voice** **3. Visuals** **4. Edit** **5. Label & post**

## ✍️ Step 1: Write a script people watch till the end

| Hook | Promise | 3–5 points | Payoff | Question |
|---|---|---|---|---|
| First 2 sec. Make them curious. | Say what they'll get at the end. | A surprise every 8–10 sec. | Deliver the promise. | A real question to answer. |

📋 **Copy this prompt** into ChatGPT, Claude or Gemini:

```
You are a scriptwriter for a faceless Facebook Reels page in the [NICHE] niche.
Audience: adults in the United States, watching on mobile.

Write a [45/60/90]-second voiceover script about: [TOPIC].

Rules:
- Line 1: a hook under 12 words that creates curiosity.
- Line 2: promise a clear payoff that comes at the end.
- 3-5 short points. Add a surprise every 8-10 seconds.
- Use American English, US examples, dollars and miles.
- Facts must be correct. Mark anything unsure with [VERIFY].
- End with the payoff, then one real question viewers can
  answer from their own life. No "comment YES" lines.
- Output 3 columns: VOICEOVER | ON-SCREEN TEXT (max 6 words) | VISUAL IDEA
- Give 3 extra hook options at the end.
```

Copy

**Always check [VERIFY] lines.** Wrong facts can get your post labeled as false, which cuts views and money.

## 🎙️ Step 2: Make a real-sounding AI voice

Use **ElevenLabs** (or a similar tool) on a **paid plan** so you are allowed to use it for money.

**Stability** · 40–50%

**Similarity / clarity** · 75%

**Style** · 0–15%

**Speed** · 1.05x–1.10x

**Speaker boost** · ON ✅

### Sounds like a robot?

Lower Stability a little.

### Voice shaky?

Raise Stability.

### People leave early?

Try speed 1.10x.

### Never

copy a real person's voice without written permission.

💡 Use the **same voice in every video**. It becomes your brand.

## 🖼️ Step 3: Get visuals you are allowed to use

### 🤖 AI images

Midjourney (paid plan for business use), Flux, Ideogram. Check each tool's rules.

### 🎞️ AI motion

Turn still images into 3–5 second moving shots with image-to-video tools.

### 🆓 Free stock

Pexels, Pixabay (free for business). Paid: Storyblocks, Envato.

### 🚀 Public images

NASA and US government images are usually free to use. Check each one.

**9:16**
Reels, Stories

**4:5**
Photo posts

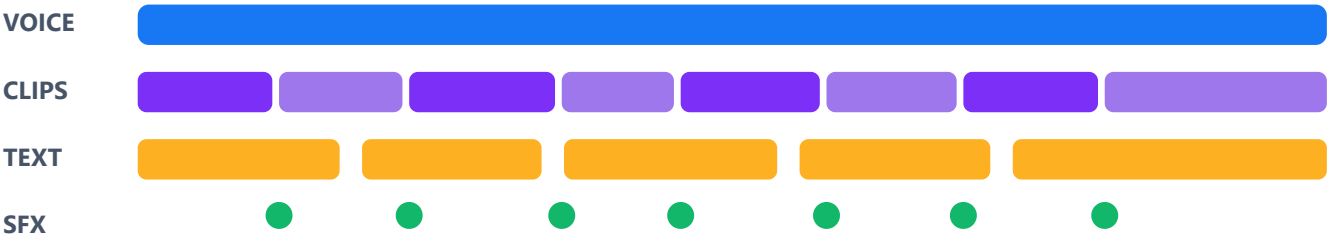

**Keep the main subject in the centre** so captions and Facebook buttons don't cover it.

**Image prompt:**

```
[SUBJECT], [ACTION], cinematic lighting, shallow depth of field, high detail, [MOOD] colors, vertical, subject centered --ar 9:16
```

## ✂️ Step 4: Edit like a pro

> 🚫 **CapCut is blocked in India.** Use **VN Video Editor**, **Canva**, **DaVinci Resolve** (free) or **Premiere Pro**.

1. Put the voice first. **Cut every silence** longer than a third of a second.
2. **Change the picture every 2–3 seconds:** new clip, small zoom-in (105–110%), or a slow pan.
3. **Big captions,** 2–4 words at a time, white text with black outline, key word in yellow.
4. Add a soft **"whoosh"** on cuts and a rising sound before the big reveal.
5. Music only from **Meta Sound Collection** or a licensed library. Keep it quiet (10–15%).
6. Export at **1080 × 1920, 30 fps**.

## 🏷️ Step 5: Use the AI label

> If your AI video or voice **looks or sounds real**, turn on the **AI label** when posting. This keeps your page safe. The label alone does not reduce your earnings.

## 🛠️ Quick fixes

| Problem | Fix |
|---|---|
| People leave in first 3 seconds | Rewrite the hook. Show your best visual first. |
| People leave in the middle | Add a surprise or cut 10–15% of the script. |
| "Unoriginal" warning | See Chapter 5. Add more of your own ideas and edits. |
| Voice sounds fake | Lower Stability. Add commas for natural pauses. |
| Too many Indian viewers | Check topic and posting time (Chapter 2). |

> 🎥 ***Supplementary Implementation Walkthrough:*** *Complete automated scaling workflow at **youtube.com/watch?v=JW8Vp3cTsEA** (Ref: Lesson #1).*

CHAPTER

# Get More Views the Right Way

04

Big reach comes from **real people** watching, sharing and commenting. Fake shortcuts get pages punished.

🚫 **Don't do this:** sharing through fake or extra accounts, posting the same link in dozens of groups, or "comment pods". Facebook treats this as spam. Pages lose reach, lose money or get removed.

## ✅ The safe way to spread your content

### Start your own Group

Make a Facebook Group for your niche and link it to your Page. Post a daily question. Share your best Reel there once.

### Join 5–10 niche groups

Pick active groups that allow sharing. Help people for a week first. Then share only matching posts, max once a week per group.

### Team up with pages

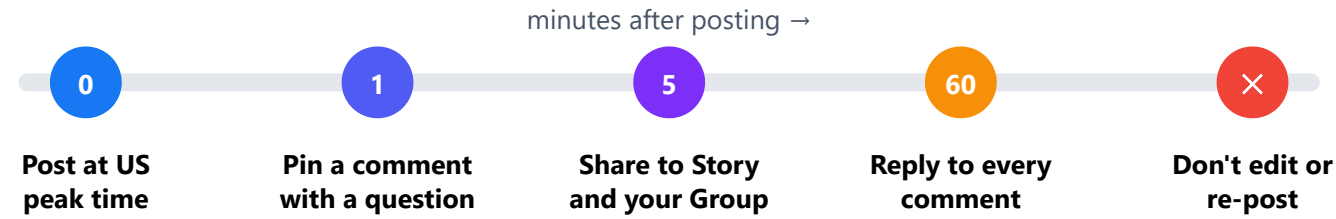

Find 3–5 similar-size pages. Share each other's posts or make posts together.

### Post everywhere at once

Post the same Reel to Facebook and Instagram from Meta Business Suite. Share it to your Story.

♻️ **Reuse winners:** When a Reel does well, make a longer video, a photo post and a text post from it.

## ⏰ The first 60 minutes after posting

# What Facebook Rewards vs Punishes

### 👍 REWARDED

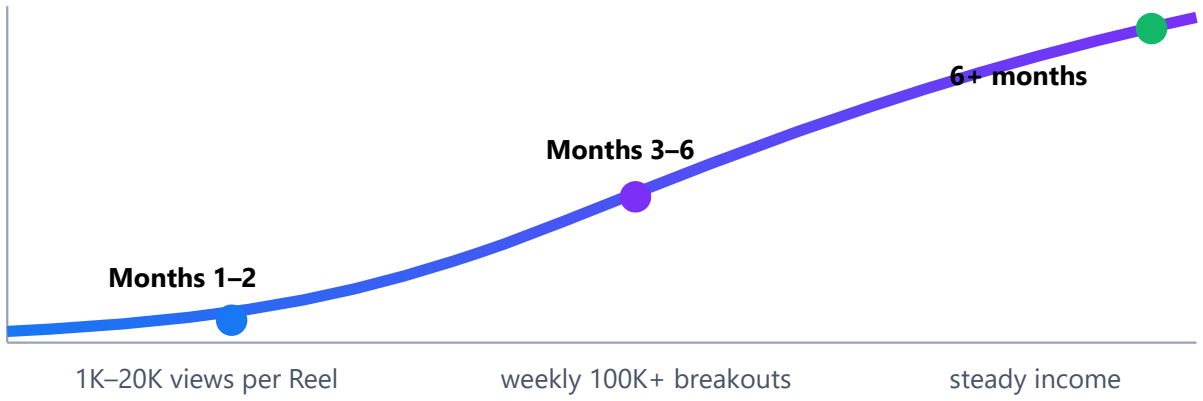

- **Watching till the end** – the strongest signal
- **Shares** to messages and Stories
- **Real comments** and conversations
- **New follows** from a post
- Series like "Part 1 of 5"

### 👎 PUNISHED

- Misleading or fake hooks
- "Comment YES" / "tag 3 friends" bait
- Reposted or copied videos
- Spam sharing and fake accounts
- People hiding your posts

## 📏 Realistic growth (so you don't give up)

No method can promise 1 million views in 24 hours. Here is what normal growth looks like:

🎯 **Scale signal:** If over **60%** of viewers stay past 3 seconds and the average viewer watches over **half** the video, make 3 more versions of that Reel.

## ✅ Chapter 4 checklist

- [ ] I created my own niche Group and linked it to my Page.
- [ ] I joined 5–10 active groups and read their rules.
- [ ] I reply to every comment in the first hour.
- [ ] I never use fake accounts or spam sharing.

CHAPTER

# Original Content Rules

05

In 2026 Facebook gives **more reach and money to original content** and less to copied content. Views on original Reels roughly doubled in late 2025.

### ✅ ORIGINAL

- Videos you made with your own script, AI voice and visuals
- Remixes where you add new facts or real analysis
- Licensed stock clips arranged into your own story

### ❌ NOT ORIGINAL

- Re-uploading other people's videos
- Adding borders, captions or speed changes to someone else's video
- Joining other people's clips or just reacting

⚠️ **Watch out:** Many online tips say "add a border, flip it, speed it up". Facebook now names exactly these tricks as **unoriginal**.

## 🔍 How Facebook spots copied videos

Facebook's Rights Manager compares every upload with videos and music owned by others. If it finds a match, it can block the video, mute it, send your earnings to the owner, or give your page a strike. **The best protection is simple: make content with nothing to match.**

## ✅ Check this before every upload

- ☐ **I wrote the script** (AI help is fine, copying a video is not).
- ☐ **I own or license every picture and clip** , and I noted the source.
- ☐ **My voice and music are allowed** for commercial use.
- ☐ **Any outside clip is short** (under 20% of the video) and I add something new.
- ☐ **No watermark** from TikTok or other apps.
- ☐ **AI label is on** where the video looks real.

*"Fair use" is a narrow US law decided case by case. It is not a free pass. If unsure, don't use the clip.*

# Got a Warning? Do This.

Stay calm. Most warnings can be fixed.

1. **Read the notice.** Go to Professional Dashboard → Monetization Status. It shows the post and the rule.
2. **Find the type.** Copyright claim? Unoriginal content? Community rule?
3. **If you made it or have a license:** appeal and attach proof (project files, license receipt, AI history).
4. **If you don't have rights:** delete it, plus any other posts made the same way.
5. **Reset:** post only clearly original content for 7–14 days before trying that style again.

| Type of problem | What to do |
|---|---|
| © Copyright claim | Licensed? Dispute with proof. Not licensed? Remove the post. |
| 🔁 Unoriginal content | Appeal if you made it; explain what you created. |
| 📜 Community Standards | Read the exact rule before appealing. |

🛡️ **Protect your own videos:** Once you have good originals, apply for Meta's **content protection** tool in your dashboard. It finds copies of your Reels and lets you take action.

🎥 **Supplementary Video Walkthrough: Content Monetization Tool Activation & Eligibility**

Watch the screen-by-screen setup inside the Professional Dashboard to submit the interest form and clear policy checks: youtube.com/watch?v=I2NjieBJua4 (Ref: Lesson #2).

CHAPTER

# Get Paid in India

06

Set up payouts **the day your invite arrives**. Facebook pays nothing until your bank and tax details are done.

## 🏦 Step 1: Create your payout account

1. Go to **Professional Dashboard** → **Monetization** → **Payouts**.
2. Choose **Individual** (unless you own a registered company).
3. Type your name **exactly as on your PAN and bank account**. One wrong letter = failed payment.
4. Add your home address in India.

## 💳 Step 2: Bank details

### Use a bank that accepts foreign money

SBI, HDFC, ICICI, Axis, Kotak and most big banks do. Account must be in your own name.

### SWIFT vs IFSC

IFSC works only inside India. For money from abroad, banks use a **SWIFT code**. Ask your bank for the right one. Fill exactly what Facebook's form asks.

## 🗓️ Step 3: When does money come?

**MONTH 1**

You post and earn

**MONTH 2**

**21**

Payout around the 21st

| Item | Detail |
|---|---|
| Minimum payout | **$100** outside the US. Smaller amounts roll over to next month. |
| Currency | Sent in US dollars. Your bank converts to rupees. |
| Proof | Keep the bank's foreign remittance advice (FIRC) for every payment. |

# The US Tax Form (W-8BEN) Made Simple

Meta is a US company, so it needs this form. Without it, **up to 30%** can be cut from US-sourced income.

### Form W-8BEN

*Example of what to fill*

| Field | What you enter |
|---|---|
| Name | Your name exactly as on PAN |
| Country of citizenship | India |
| Permanent address | Your home address in India (not a PO box) |
| US tax number | Leave blank |
| Foreign tax number | Your **PAN** |
| Date of birth | As on PAN |
| Tax treaty | Resident of **India** – follow the form's steps |
| Sign | Sign online. You confirm you are not a US person. |

**Good to know:** Many Indian creators who work fully from India see little or no US tax cut. But it depends on how Meta classifies each payment, so check every payout statement. The form is usually valid for 3 years.

## IN Taxes in India

### 📄 Income tax

Facebook income is taxable in India as business or professional income. Track income and costs, and file your ITR.

### 🧾 GST

Needed once yearly turnover crosses about **₹20 lakh**. Foreign income is usually "export of services" – ask about an **LUT**.

### 🗓️ Advance tax

If your yearly tax is over **₹10,000**, pay it in quarterly parts.

### 🗂️ Records

Keep payout statements, bank papers and your W-8BEN copy safely.

*This is general information, not tax advice. Talk to a Chartered Accountant (CA).*

# Payout Problem Solver

| What you see | Why | Fix |
|---|---|---|
| ⏸️ Payout "on hold" | Tax form missing or expired | Fill or renew W-8BEN |
| ↩️ Payment failed | Name mismatch or wrong bank/SWIFT details | Correct details, wait for next cycle |
| 💤 Earnings shown, no money | Balance under $100 | It rolls over automatically |
| ✂️ Tax cut you didn't expect | Treaty part of W-8BEN | Check it with a CA |
| 🏦 Bank asks for papers | Foreign money rules | Give the purpose code for "export of services" |

## ✅ Chapter 6 checklist

- [ ] My payout name matches my PAN and bank account exactly.
- [ ] I got the correct SWIFT code from my bank.
- [ ] I filled W-8BEN with my PAN.
- [ ] I talked to a CA about income tax and GST.
- [ ] I save every payout statement and FIRC.

🎉

**You now know the full money path:**

Original content → real views → invite → payout setup → money in your Indian bank.

🎥 **Supplementary Video Walkthrough: Indian Bank Payout & SWIFT Wire Setup**

Watch the exact dashboard walkthrough for linking Indian bank accounts and filling W-8BEN tax exemption: youtube.com/watch?v=2z-Kl9kQILQ (Ref: Lesson #3).

CHAPTER

# 50 Hooks That Stop the Scroll

07

Change the words in [brackets] for your niche. **Only use a hook your video truly delivers** – fake hooks make people hide your posts.

## 🤔 Curiosity

1. Nobody talks about why [thing] really happened.
2. This [object] was hiding in plain sight for [number] years.
3. There's a reason [big company] never [does X].
4. I found out what really happens when you [action].
5. The strangest [niche] fact I've ever learned.
6. Look closely at [detail]. Now you can't unsee it.
7. What [group] knows about [topic] that you don't.
8. This took [number] years to figure out.
9. The real story behind [familiar thing] is wild.
10. Here's what [thing] looks like from the inside.

## ⚠️ Warning

11. Stop [common habit] until you see this.
12. If you [do X], you're losing money every month.
13. The [niche] mistake almost everyone makes.
14. Don't sign [document] before checking this line.
15. This is why your [thing] keeps [failing].
16. [Number] signs your [thing] is about to [break].
17. Banks hope you never notice this fee.
18. This phone setting is costing you [result].
19. The [product] trick that quietly backfires.
20. Before you buy [item], know this.

## 🔄 Contrarian

21. [Popular advice] is wrong. Here's why.
22. Unpopular opinion: [belief] is overrated.
23. Rich people I studied do the opposite of [habit].
24. Everyone copies [strategy]. Smart ones skip it.
25. You don't need [expensive thing] to [result].
26. [Famous idea] sounds smart until you do the math.
27. Working harder isn't why [group] gets ahead.
28. The "safe" choice is often the risky one.
29. Most [niche] experts won't say this out loud.
30. Forget [trend]. This is what works now.

### 💵 Money proof

**31.** $[amount] a month to $[amount]: here's what changed.

**32.** How a [age]-year-old turned $[amount] into $[amount].

**33.** What $[amount] buys in [city] vs [city].

**34.** The math behind a $[price] [house/car/watch].

**35.** Here's what [job] really earns in the US.

**36.** One decision worth $[amount] over 20 years.

**37.** This company makes $[amount] a day from [simple thing].

**38.** The cheapest [item] that's actually worth it.

**39.** I compared [number] [products] so you don't have to.

**40.** Inside a $[amount] home, room by room.

### ⏳ Urgency (real deadlines only)

**41.** This changes on [date]. Here's what to do now.

**42.** You have until [deadline] to [action].

**43.** Watch this before your next [purchase/trip/bill].

**44.** If you live in the US, check this today.

**45.** This window closes in [timeframe].

**46.** Do this one thing before the month ends.

**47.** The [season] mistake that costs people every year.

**48.** New rule for [year]: what it means for you.

**49.** Prices on [item] are about to change. Here's why.

**50.** Save this before you need it.

### 💬 Captions that get real comments

**Avoid:** "Comment YES", "Tag 3 friends", "Share if you agree". Facebook lowers the reach of these.

| Type | Example |
|---|---|
| Fact + question | "Americans spend $273 a month on subscriptions. Which one would you never cancel?" |
| Debate | "Rent or buy in 2026? Which side are you on, and what's your city?" |
| Missing piece | "We covered 5 hidden costs of owning a car. What did we miss?" |
| Series | "Part 1 of 3. Part 2 drops tomorrow." |
| Your story | "Has this ever happened to you? What did you do?" |

**Caption formula:** Line 1 = short hook → Lines 2–3 = one extra fact not in the video → Last line = a real question. Use only 3–5 hashtags.

PRACTICAL IMPLEMENTATION VAULT

# Curated Video Walkthroughs & Implementation Notes

Watch these handpicked, high-performing visual case studies showing real Meta dashboards, AI reel workflows, and step-by-step monetization setups. Follow our written action notes alongside the Playbook chapters!

### 🎥 Video Lesson #1: Facebook Automation & Page Scaling (Full Course 2026)
